WE NEVER LEARN

BY TAISHI TSUTSUI

Nariyuki Yuiga is a self-professed super student. He's not naturally gifted in the sciences or arts like his classmates Rizu and Fumino, but he does have pluck and persistence! He's such a good student that he finally realizes his dream of obtaining a scholarship to college, which is a great relief since his family is dirt-poor! But there's a catch...

PREVIOUSLY IN *WE NEVER LEARN*:

Nariyuki desperately wants to obtain a college scholarship to improve the quality of his life, especially since his father has died and left the family destitute. And much to Nariyuki's joy and surprise, he finds out from the school principal that he has earned that scholarship, but under one condition... Nariyuki must tutor science whiz Rizu and the literary genius Fumino to help them also get into college, which should be a breeze since they're geniuses. However, he quickly finds the opposite to be true, since Rizu wants to study literature and Fumino science! Making matters worse, those two geniuses suck at everything other than their field of specialty! But that's not all—now he has to tutor super athlete Uruka in English, which presents quite the problem since Uruka hates studying more than anything.
